

INVITATION TO JOIN: 2018 Health Center Leadership Learning Stream

WHAT

is the Leadership Learning Stream?

The 2018 **Health Center Leadership Learning Stream** is an opportunity for health center leaders, and PCA/HCCN staff supporting their efforts, to join together in discussion, sharing, and learning around ways to leverage leadership's role in transforming the health center to advance the Quadruple Aim goals of improved health outcomes, improved patient and staff experience, and reduced costs.

The Leadership Learning Stream is a series of three learning forums to discuss best practices for governing and leading people, care delivery systems, and the organizational infrastructure toward **value transformation**. Discussions will be facilitated by NACHC's Quality Center Director and focus on actions leaders can take to create the environment, skills, and structure needed to support transformation to value-based care.

Target Audience: Health Center C-Suite
PCA/HCCN staff supporting health center leadership transformation efforts

WHAT

are the Learning Objectives?

1. To discuss the business case in support of health center transformation.
2. To become familiar with evidence-based leadership interventions in support of transformation and the NACHC Value Transformation Framework's Leadership Action Guide.
3. To discuss action steps based upon the leadership interventions.
4. To learn how NACHC's Quality Center supports evidence-based transformation activities to advance health centers toward the Quadruple Aim.
5. To engage in collaborative sharing and discussion with fellow health center leaders and PCA/HCCN staff regarding the role and strategies of health center leaders toward the Quadruple Aim.

The National Association of Community Health Centers' (NACHC) Quality Center supports health centers in delivering on the Quadruple Aim goals of: improved health outcomes, improved patient and staff experience, and reduced costs.

The Value Transformation Framework, developed by NACHC's Quality Center, gathers and organizes evidence-based and promising practices to transform a health center's infrastructure, people, and care delivery systems toward achievement of the Quadruple Aim goals.
