Notes: Federally-funded Federally-Qualified Health Centers (FQHCs) meet federal health center requirements and are required to report administrative, clinical, and other information to the federal Bureau of Primary Health Care, HRSA. Other health centers known as "FQHC Look-Alikes" are not included here because they do not receive federal health center grants and do not report to the Bureau of Primary Health Care. The data provided here consequently underreport the services provided by FQHCs. There are approximately 56 Look-Alike organizations operating 246 service delivery sites across the United States.

* FTEs (full time-equivalent) employees

** Dual eligibles enrolled in both Medicaid and Medicare are only counted in Medicare
