

SELF-DIRECTED LEARNING ENGINE (SDLE®)

From SkillDirector
“Own Your Professional Path”

CLINICAL LEADERS: The unique and robust Self-Directed Learning Engine (SDLE) enables you to self-assess against core competencies developed by experts, identify skill gaps, pursue activities and resources mapped specifically to those gaps, and track your Development Plan.

SDLE addresses core knowledge and skills *ALL* health center Clinical Leaders need – at virtually any level – to be *increasingly effective managers, leaders, and advocates for their centers and communities.*

In addition to the history, terminology, political evolution, and regulatory expectations of the Health Center Movement, SDLE focuses on Clinical Leader competency in such critical issues as:

- › Achieving *Ever-Better Performance* in Your Clinical Leader Role
- › Addressing *Common Clinical and Administrative* Issues in Health Centers
- › Fully Understanding and Working Within the *Health Center Model*
- › Facing *Future Health Center Challenges*
- › Successfully *Facilitating Change*
- › Implementing *Self-Care Concepts and Techniques* for Yourself and Your Staff

WHAT ARE SDLE'S MAJOR BENEFITS?

- 1 Identify your specific skill gaps
- 2 Easily find targeted learning opportunities to close your gaps
- 3 Create a structured short-term plan for how you want to grow
- 4 Drive plan follow-through and easily hold yourself accountable
- 5 Guide conversations with your manager – help them to help you
- 6 Achieve performance-based goals and targets
- 7 Develop the skills for the job you want next
