Leadership is not about a title or designation. It’s about impact, influence, and inspiration. Impact involves getting results, influence is about spreading the passion you have for your work, and you have to inspire teammates and customers.

Leadership LIVE!

Two-Day Leadership & Networking Intensive

April 28-29, 2020

Holiday Inn Arlington at Ballston
4610 N. Fairfax Drive
Arlington, VA 22203
Imagine what could happen if we harnessed the energy, insights, and experience of our health center leaders: emerging, seasoned, or not yet realized. What if we could come together and speak instead of being talked at, share with instead of compete against, be impactful instead of reactionary; imagine the kind of change we could create in the improved health outcomes of our communities by advancing our organizations leadership skills.

Core leadership skills are required for every role and position in a health center - come join us and enhance your skills in a high energy environment where you will learn how to improve communication, influence organizational culture, and build a team...all while boosting your professional health center network.

NACHC's new Leadership LIVE! learning event is intended for emerging and experienced leaders alike. The core design is for health center leaders to learn from and engage with health center peers. Participants of the Leadership LIVE! pilot event (May 2019) stated:

“This was a ground breaker! The more that leaders can embrace the principles showcased in this event, the more this industry will grow and flourish.”

“This by far was the best leadership training/networking sessions that I have attended in my 20+ years in healthcare”

"Interactive in every sense of the word. This was a learning experience that I did not want to end."

Health centers can use this learning event as an organizational team building opportunity to build team trust, communication, and performance!

Learning Objectives

By the end of this event the participant will be able to:

- Apply leadership concepts critical for advancing both personal growth and your own health center's operations
- Develop strategies to establish a work place culture that provides a healthy and productive work environment
- Build an effective team through core values exploration and innovative thinking
- Implement emotional intelligence concepts in change management, conflict resolution, and team communication
- Recognize behaviors of a great leader such as adaptive leadership, work life balance, and the courage to lead
- Develop a leadership network with whom you can share ideas, ask questions, and support one another beyond the 2-day training
