

NATIONAL FINDINGS ON HEALTH CENTERS' RESPONSE TO COVID-19

As of April 30, 2020

The Health Resources and Services Administration (HRSA) is surveying health centers weekly to track their COVID-19 response and patient and staff impacts. They illustrate a snapshot of an unprecedented and evolving situation.

Health Centers are Rapidly Adapting to Meet Testing Needs in Their Communities

have the ability to test

have walk-up or drive-up testing

Total Reported as of April 30, 2020¹ *Increases since last week*

255,116 → **80,696**

Patients have been tested

41,516 → **16,578**

Patients have tested positive

3,467 → **494**

Staff have tested positive

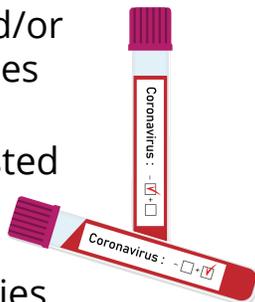

In the past week:

54%

of patients tested were racial and/or ethnic minorities

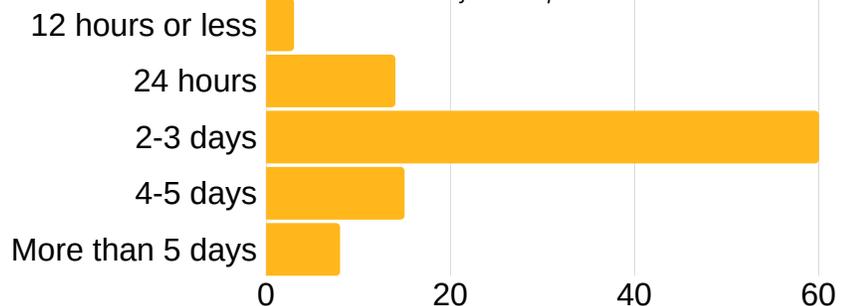

63%

of patients tested positive were racial and/or ethnic minorities

Turnaround Time for Test Results

% of health centers that experienced the following turnaround times for their patients' results

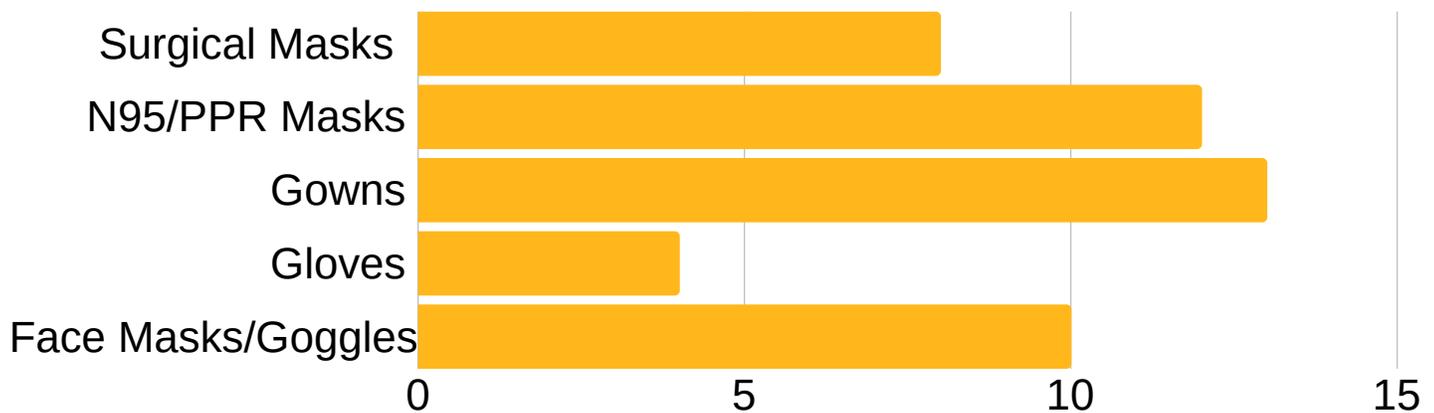

54% of visits last week occurred virtually

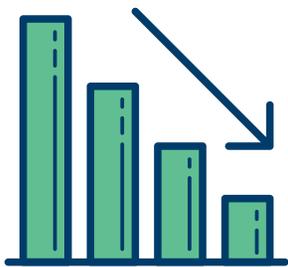

Health Centers' Access to Personal Protective Equipment (PPE) Improving, But Needs Remain

% of health centers that may run out of personal protective equipment (PPE) items after next week

COVID-19 Results in Extreme Challenges to Health Center Operations, Staffing, and Budgets. This Week:

Health center weekly visits are down by about half²

12% of health center staff are unable to report to work due to COVID-19³

1,779 health center sites temporarily closed due to COVID-19

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Data Collection Survey administered April 24-30, 2020. 1,038 (75%) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit <https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data>.

1. Total reported refers to the number of respondents since the survey period starting on April 3, 2020.

2. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits are at 54% of average of weekly visits pre-COVID-19.

3. Due to staff exposure, school closure, site/service closure, and other reasons.
