The Health Resources and Services Administration is surveying health centers weekly to track their COVID-19 response and their patient and staff impacts. 70% (977) of health centers responded this week. Their results present a snapshot of an unprecedented and evolving situation.

**NATIONAL FINDINGS ON HEALTH CENTERS' RESPONSE TO COVID-19**

As of May 22, 2020

---

**Health Centers are Rapidly Adapting to Meet Testing Needs in Their Communities**

- **92%** have the ability to test
- **70%** have walk-up or drive-up testing

---

**Total Reported as of May 22, 2020**

- **773,367** → **134,702** Patients have been tested
- **134,161** → **17,535** Patients have tested positive
- **5,382** → **381** Staff have tested positive

---

**In the past week:**

- **59%** of patients tested were racial and/or ethnic minorities
- **68%** of patients tested positive were racial and/or ethnic minorities

---

**Turnaround Time for Test Results**

- 12 hours or less
- 24 hours
- 2-3 days
- 4-5 days
- More than 5 days

---

*Note: Increases since last week*

COVID-19 Results in Extreme Challenges to Health Center Operations, Staffing, and Budgets. This Week:

1,959 health center sites temporarily closed due to COVID-19

10% of health center staff are unable to report to work due to COVID-19

Health center visits are down to 62% of normal rates, which have been increasing slightly each week since April

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on May 22, 2020. 70% (977) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data.

1. Total reported refers to the number of respondents since the survey period starting on April 3, 2020.
2. Due to staff exposure, school closure, site/service closure, and other reasons.
3. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits the week prior to April 10 were 47% of pre-COVID normal rates.
