

NATIONAL FINDINGS ON HEALTH CENTERS' RESPONSE TO COVID-19

As of June 12, 2020

The Health Resources and Services Administration is surveying health centers weekly to track their COVID-19 response and their patient and staff impacts. 73% (1,011) of health centers responded this week. As of June 5th, **over one million health center patients have been tested for COVID-19.**

Health Centers are Rapidly Adapting to Meet Testing Needs in Their Communities

have the ability to test

have walk-up or drive-up testing

This week:

For Virus Detection

131,421 Patients were tested

14,219 Patients tested positive

57% of patients tested were racial and/or ethnic minorities

69% of patients tested positive were racial and/or ethnic minorities

For Antibody Detection

8,600 Patients were tested

1,380 Patients tested positive

63% of patients tested were racial and/or ethnic minorities

73% of patients tested positive were racial and/or ethnic minorities

SINCE APRIL 3RD:¹

Total patients tested

1,197,722

Total patients tested positive

196,935

Turnaround Time for COVID-19 Test Results

% of health centers that experienced the following turnaround times for their patients' results

Health Centers' Access to Personal Protective Equipment (PPE) Improving, But Needs Remain

% of health centers that may run out of personal protective equipment (PPE) items after next week

COVID-19 Results in Extreme Challenges to Health Center Operations, Staffing, and Budgets. This Week:

96% of health centers conducted visits virtually

1,529 health center sites temporarily closed due to COVID-19²

7% of health center staff are unable to report to work due to COVID-19

318 staff tested positive³

Health center visits are at **70% of normal rates**, which have been increasing slightly each week since April⁴

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on June 12, 2020. 73% (1,011) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit <https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data>.

1. Total reported refers to the number of respondents for COVID-19 testing since the survey period starting on April 3, 2020.

2. Due to staff exposure, school closure, site/service closure, and other reasons.

3. Represents the number that tested positive for COVID-19 virus detection.

4. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits the week prior to April 10 were 47% of pre-COVID normal rates.
