

NATIONAL FINDINGS ON HEALTH CENTERS' RESPONSE TO COVID-19

As of June 5, 2020

The Health Resources and Services Administration is surveying health centers weekly to track their COVID-19 response and their patient and staff impacts. 80% (1,111) of health centers responded this week. As of June 5th, **over one million health center patients have been tested for COVID-19.**

Health Centers are Rapidly Adapting to Meet Testing Needs in Their Communities

have the ability to test

have walk-up or drive-up testing

This week:

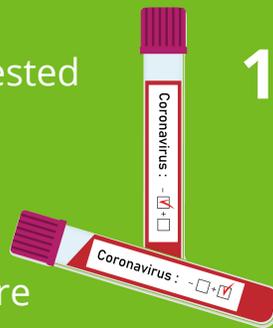

For Virus Detection

143,648 Patients have been tested

21,272 Patients have tested positive

54% of patients tested were racial and/or ethnic minorities

65% of patients tested positive were racial and/or ethnic minorities

For Antibody Detection

15,946 Patients have been tested

5,402 Patients have tested positive

47% of patients tested were racial and/or ethnic minorities

37% of patients tested positive were racial and/or ethnic minorities

SINCE APRIL 3RD:¹

Total patients tested

1,057,701

Total patients tested positive

181,336

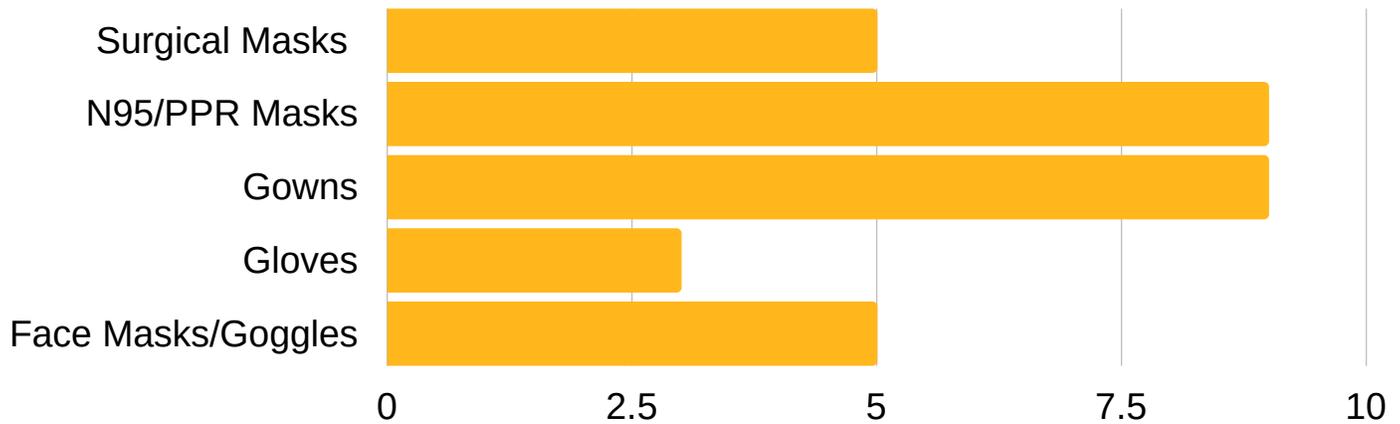

Turnaround Time for COVID-19 Test Results

% of health centers that experienced the following turnaround times for their patients' results

Health Centers' Access to Personal Protective Equipment (PPE) Improving, But Needs Remain

% of health centers that may run out of personal protective equipment (PPE) items after next week

COVID-19 Results in Extreme Challenges to Health Center Operations, Staffing, and Budgets. This Week:

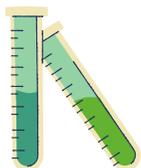

96% of health centers conducted visits virtually

1,762 health center sites temporarily closed due to COVID-19²

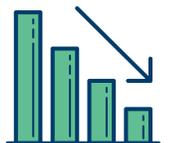

8% of health center staff are unable to report to work due to COVID-19

412 staff tested positive³

Health center visits are down to **68% of normal rates**, which have been increasing slightly each week since April⁴

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on June 5, 2020. 80% (1,111) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit <https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data>.

1. Total reported refers to the number of respondents for COVID-19 testing since the survey period starting on April 3, 2020.

2. Due to staff exposure, school closure, site/service closure, and other reasons.

3. Represents the number that tested positive for COVID-19 virus detection.

4. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits the week prior to April 10 were 47% of pre-COVID normal rates.
