The Health Resources and Services Administration is surveying health centers weekly to track their COVID-19 response and their patient and staff impacts. 73% (1,011) of health centers responded this week. Since April 3rd, almost 2 million health center patients have been tested for COVID-19.

This week:

**For Virus Detection**
- 226,262 Patients were tested
- 21,625 Patients tested positive
- 50% of patients tested were racial and/or ethnic minorities
- 64% of patients tested positive were racial and/or ethnic minorities

**For Antibody Detection**
- 17,196 Patients were tested
- 1,642 Patients tested positive
- 40% of patients tested were racial and/or ethnic minorities
- 60% of patients tested positive were racial and/or ethnic minorities

SINCE APRIL 3RD:
- Total patients tested: 1,970,404
- Total patients tested positive: 277,655
Health Centers Continue to Have Issues with PPE Access

% of health centers that may run out of personal protective equipment (PPE) items after next week

- Surgical Masks
- N95/PPR Masks
- Gowns
- Gloves
- Face Masks/Goggles

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on July 10, 2020. 73% (1,011) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data.

1. Total reported refers to the number of respondents for COVID-19 testing since the survey period starting on April 3, 2020.
2. Due to staff exposure, school closure, site/service closure, and other reasons.
3. Represents the number that tested positive for COVID-19 virus detection.
4. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits the week prior to April 10 were 47% of pre-COVID normal rates.
