This week:

For Virus Detection

\[
\text{Patients were tested} = 206,053 \\
\text{Patients tested positive} = 20,408 \\
\text{52\% of patients tested were racial and/or ethnic minorities} \\
\text{61\% of patients tested positive were racial and/or ethnic minorities}
\]

For Antibody Detection

\[
\text{Patients were tested} = 15,155 \\
\text{Patients tested positive} = 3,665 \\
\text{52\% of patients tested were racial and/or ethnic minorities} \\
\text{35\% of patients tested positive were racial and/or ethnic minorities}
\]

SINCE APRIL 3RD\(^1\):

\[
\text{Total patients tested} = 2,896,678 \\
\text{Total patients testing positive} = 373,229
\]
Health centers continue to have issues with PPE access

COVID-19 challenges to health center operations and budgets. This week:

- **96%** of health centers conducted visits virtually.
- **996** health center sites temporarily closed due to COVID-19.
- **6%** of health center staff are unable to report to work due to COVID-19.
- **527** staff tested positive.
- **Health center visit rates remain below normal at 79%**.

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on August 7, 2020. 71% (978) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data.

1. Total reported refers to the number of respondents for COVID-19 testing since the survey period starting on April 3, 2020.
2. Due to staff exposure, school closure, site/service closure, and other reasons.
3. Represents the number that tested positive for COVID-19 virus detection.
4. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits the week prior to April 10 were 47% of pre-COVID normal rates.
