

NATIONAL FINDINGS ON HEALTH CENTERS' RESPONSE TO COVID-19

As of August 8, 2020

The Health Resources and Services Administration is surveying health centers weekly to track their COVID-19 response and their patient and staff impacts. 71% (978) of health centers responded this week. Since April 3rd, **over 2.8 million health center patients have been tested for COVID-19.**

Health Centers are Meeting Testing Needs in Their Communities

have the ability to test

have walk-up or drive-up testing

This week:

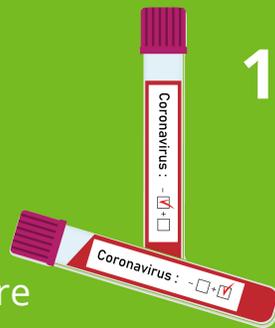

For Virus Detection

206,053 Patients were tested

20,408 Patients tested positive

52% of patients tested were racial and/or ethnic minorities

61% of patients tested positive were racial and/or ethnic minorities

For Antibody Detection

15,155 Patients were tested

3,665 Patients tested positive

52% of patients tested were racial and/or ethnic minorities

35% of patients tested positive were racial and/or ethnic minorities

SINCE APRIL 3RD:¹

Total patients tested

2,896,678

Total patients testing positive

373,229

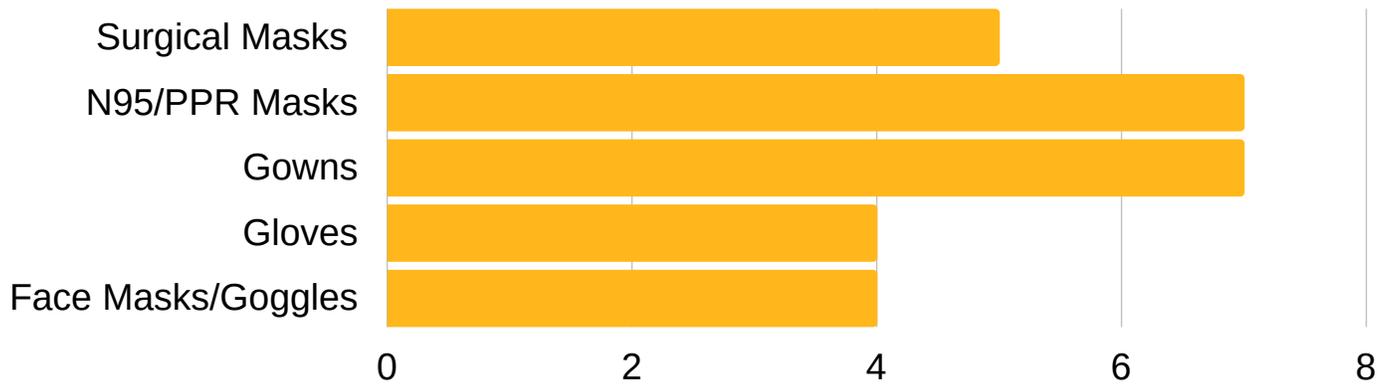

Turnaround Time for COVID-19 Test Results

% of health centers that experienced the following turnaround times for their patients' results

Health Centers Continue to Have Issues with PPE Access

% of health centers that may run out of personal protective equipment (PPE) items after next week

COVID-19 Challenges to Health Center Operations and Budgets. This Week:

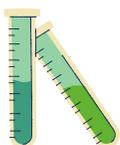

96% of health centers conducted visits virtually

996 health center sites temporarily closed due to COVID-19²

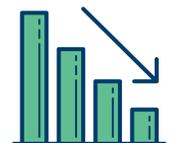

6% of health center staff are unable to report to work due to COVID-19

527 staff tested positive³

Health center visit rates remain below normal at **79%**⁴

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on August 7, 2020. 71% (978) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit <https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data>.

1. Total reported refers to the number of respondents for COVID-19 testing since the survey period starting on April 3, 2020.

2. Due to staff exposure, school closure, site/service closure, and other reasons.

3. Represents the number that tested positive for COVID-19 virus detection.

4. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits the week prior to April 10 were 47% of pre-COVID normal rates.
