Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on September 4, 2020. 68% (943) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data.

1. Total reported refers to the number of respondents for COVID-19 testing since the survey period starting on April 3, 2020.
2. Due to staff exposure, school closure, site/service closure, and other reasons.
3. Represents the number that tested positive for COVID-19 virus detection.
4. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits the week prior to April 10 were 47% of pre-COVID normal rates.
