The Health Resources and Services Administration is surveying health centers bi-weekly to track their COVID-19 response. 79% (1,092) of health centers responded this fielding. To date, over **12.7 million** health center patients have been tested for COVID-19 and over **15 million** vaccines have been completed.

**Past two week’s COVID-19 vaccinations:**

- **171,821** Vaccinations were initiated
- **156,231** Vaccinations were completed

  - 80% of vaccinations initiated were racial and/or ethnic minority patients
  - 80% of vaccinations completed were racial and/or ethnic minority patients

**Since January 1, 2021:**

- Total vaccinations initiated: **8,376,478**
- Total vaccinations completed: **6,953,741**
Past two weeks of COVID-19 virus detection

509,005 Patients were tested
59% of patients tested were racial and/or ethnic minorities

68,389 Patients tested positive
54% of patients tested positive were racial and/or ethnic minorities

SINCE APRIL 3RD, 2020:
Total patients tested
12,754,208

Total patients testing positive
1,528,242

Health Centers Continue to Have Issues with Test Result Turnaround Time and Administering the Vaccine

47% of Health Centers Report COVID-19 Test Results Have a Turnaround Time of less than 24 hours

% of Health Centers That Have These Challenges with Vaccine Deployment:

- Financial Reimbursement
- Adequate Staff
- Vaccine Confidence
- Vaccine Storage
- Vaccine Supply

Ongoing Health Center Operations and COVID-19 Challenges:

92% of health centers conducted visits virtually

5% of health centers provided monoclonal antibody therapies

40% of health centers referred patients to another organization that provides monoclonal antibody therapies

Health center visit rates remain below normal at 91%

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on August 27, 2021. 79% (1,092) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur.
