

CCHI'S INNOVICTIONARY

NACHC's Innovictionary (innovation dictionary) will serve health centers, PCAs, and HCCNs as a one stop shop for innovation language as well as their application in the health center environment. Each word will have its definition, tools, a graphic representation, and a featured program. At the Health Center Lens portion, a health center, PCA, or HCCN program that uses the term will be featured. Submit descriptions, programs to be featured, or tools here: <https://forms.office.com/r/VU7ke7LP6X>.

First Batch:

Agile	End-User	Lean Methodology
Assumption	Growth Mindset	Minimum Viable Product
Brainstorm	Human Centered Design	Prototype & Testing
Change Management	Ideation	Roadmap
Design Thinking	Impact	STEEP

Remaining Words:
