MSSP AIP Webinar Series

Medicare Shared Savings Program (MSSP) Advance Investment Payment (AIP) program 2-part webinar series

Webinar #1: Overview | Tuesday, May 2nd 1-2pm ET

Webinar 1 will provide a Medicare Shared Savings Program (MSSP) Advance Investment Payment (AIP) overview. In this session, you'll learn about the MSSP AIP program and how it can advance the value-based care journeys of health centers, PCAs, and HCCNs.

Webinar #2: Application Process | Tuesday, May 23rd 1-2pm ET

Webinar 2 will provide insight into the MSSP application process as well as action steps, tips, and tricks to complete your application in a timely manner with the least amount of stress.

NACHC Resources to Support your VBC Transformation

As your health center considers the MSSP AIP, or other value-based care options, leverage NACHC's FREE resources:

- **Value Transformation Framework:** An organizing framework to support health center systems change and advancement toward value-based care
- **VTF Assessment:** An assessment tool to measure organizational progress in 15 Change Areas for transformation
- **Elevate National Learning Forums:** Live, virtual learning opportunities with peer exchange focused on topics relevant to value-based care transformation
- **Online Learning Platform** with resources to support value-based care transformation:

Action Guides

Reimbursement
Tips

Webinars

eLearning
Courses

Microlearnings

Resources target ***different levels of health center readiness***, provide ***skill development opportunities*** for the health center workforce of the future, and offer an ***actionable value-based care transformation strategy*** that supports and complements the work of PCAs, HCCNs, and CINs.

Guided application of the Value Transformation Framework

Featured Speaker

Douglas Jacobs, MD, MPH
Chief Transformation Officer
Center for Medicare, CMS

Dr. Doug Jacobs is the Chief Transformation Officer in the Center for Medicare at the Centers for Medicare and Medicaid Services (CMS). At CMS he is helping lead Medicare's efforts to promote value-based care, advance health equity, and encourage delivery system transformation. Under his leadership, the Center for Medicare has finalized the most significant reforms to the Shared Savings Program since the program's inception, policies to expand access to behavioral health and primary care, equity-focused policies that reward excellent care delivered to underserved populations, and the development of the Universal Foundation, a strategy to align quality metrics across CMS programs and activities. He most recently served as the Chief Medical Officer and Chief Innovation Officer for the Pennsylvania Department of Human Services. He was tapped by Governor Wolf to lead the state's Whole Person Health Reform initiative, which included expanding value-based care, promoting health equity, and addressing the social determinants of health. Dr. Jacobs is a practicing board-certified internal medicine physician and is an Assistant Professor of Clinical Medicine at the Penn State Hershey Medical Center. He received his MD at the University of California San Francisco School of Medicine, his MPH at the Harvard T.H. Chan School of Public Health, and his Bachelor's in Sciences from Brown University.

Featured Speaker

Douglas Jacobs, MD, MPH
Chief Transformation Officer
Center for Medicare, CMS

Featured Speaker

Heidi Robertson-Cooper, MPA
President
Health Care Advisors

Heidi Robertson-Cooper, MPA served over ten years in health care, focusing on primary care policy, value-based payment, and delivery system redesign impacting primary care and the safety net community. Before starting HRC Health Care Advisors, she served in leadership roles for the Missouri Primary Care Association, MissouriHealth+, the American Academy of Family Physicians, and a health center in Northeast Missouri. In these roles, she oversaw efforts to influence primary care delivery and payment systems reform, develop resources assisting primary care physicians in achieving professional success in all practice settings, and provide effective value-based practice transformation and performance improvement support for primary care and community health centers.

2024 Medicare Shared Savings Program: Advance Investment Payment Option

Health Center Options for Evaluating
Participation

Today's Objectives

- 1 • An overview of the 2024 Medicare Shared Savings Program and the Advance Investment Payment Option
- 2 • Understanding of participation options for those new to MSSP and those with current and/or previous participation; and
- 3 • Concrete next steps for evaluating your Health Center's participation.

What is the Medicare Shared Savings Program?

- The Shared Savings Program is a voluntary program that encourages groups of doctors, hospitals, and other health care providers to come together as an Accountable Care Origination (ACO) to give coordinated, high-quality care to their Medicare beneficiaries.
- It is value-based payment model that:
 - Promotes accountability for a patient population.
 - Coordinates items and services for Medicare FFS beneficiaries.
 - Encourages investment in high quality and efficient services.
- ACOs that successfully meet quality and savings requirements share a percentage of the savings with Medicare
- Glide Path for increasing levels of shared savings, risk and reward

Source: <http://innovations.cms.gov/initiatives/ACO/index.html>

CMS is committed to the growth of the Medicare Shared Savings Program in Rural and Underserved Areas

- CMS aims for all Fee for Service Medicare beneficiaries in an Accountable Care relationship by 2030.
- Significant updates were made to the MSSP in 2022 with a heightened focus on health equity and growing accountable care participation including:
 - New incentives for ACOs that serve a high proportion of under served Medicare beneficiaries
 - Health Equity Quality Bonus
 - Slower Glidepath to Risk

Advance Investment Payment (AIP) Model Overview

- Focus on new ACOs serving patients in rural and medically underserved areas
- AIP offers eligible ACOs advance shared savings payments to build infrastructure increasing participation
- Goal is to build the infrastructure needed to succeed in the program and promote equity by holistically addressing beneficiary needs, including social needs.

Advance Investment Payment Option

Infrastructure Support

- One Time Investment Payment of \$250,000
- Eight Per Member Per Quarter Payments; Risk-factor based
- Funding used to support staffing, health care infrastructure and provision of accountable care for underserved beneficiaries

ACO Eligibility

- Rural and Medically Underserved Focus
- New ACOs with little to no Value-based Care Experience
- Payments are available for 10,000 Medicare patients; Minimum 5,000 patient threshold

Program Specifics

- Starts in 2024 with five years participation
- Track A Participation (no down-side risk)
- AIP funds will be recouped from earned shared savings in an ACO's current and subsequent agreement period, if a balance persists.

Source: CMS AIP Payments Guidance

MSSP AIP: Three Funding Opportunities

Upfront infrastructure
funding

Per beneficiary per
quarter payments

Shared savings

Going Deeper: Per Beneficiary Per Quarter Payments

Risk Factor Based Score

CMS assigns each beneficiary a risk factors-based score:

1. Dual Eligibility
2. Part D Low-income Subsidy
3. Area Deprivation Index (ADI)

Source: CMS AIP Payments Guidance

Per Beneficiary Per Quarter Payments

Risk factors-based score	1-24	25-34	35-44	45-54	55-64	65-74	75-84	85-100
PBPQ amount	\$0	\$20	\$24	\$28	\$32	\$36	\$40	\$45

MSSP AIP: Shared Savings Methodology

Historical Benchmark

- Accounts for relative risk of the ACO's population

Shared Savings Payment Method

- Includes quality performance as a threshold
- Percent of savings shared with CMS
- Track A caps total savings at 40%

If Earned, Savings Distributed

- AIP Funds recouped through shared savings
- Remainder can be used to reward providers who did the work, finance ACO operations, and finance reserves

Source: Shared Savings Program ACO Participation Options (Updated 4/10/2023) (PDF)

ACO Participation

ACO Criteria for MSSP AIP

ACO Eligibility

- New ACO
- Low revenue ACO
- No recent or limited experience in CMS VBC Initiatives or New to Pathways to Success BASIC Track

Participant Criteria

- Less than 50% of the ACO's participants participating in the BASIC track
- Less than 40 % of the ACO's participants participated in a performance-based risk Medicare ACO initiative in each of the five performance years
- CMS will review Performance Year (PY) 2019 through PY 2023 for PY 2024 to determine if participants have experience with risk.

Source: CMS AIP Payments Guidance

What if I'm already participating in an ACO?

- Primary care providers can only participation in one ACO at a time
- Review Participation Agreement with current ACO
- Know that you have options...

Joining an ACO

ACO Participation Considerations

Do you have time and resources to joint an ACO?

- 01.**
- Quality Improvement Staff
 - Care management or coordination staff infrastructure
 - Transitions of Care
 - Population Health Analytics

Medicare Patient Mix

- 02.**
- Attribution is key
 - Payer mix
 - How well does your patient panels translate into attributed members?
 - Area Deprivation Index

Program and Initiative Alignment

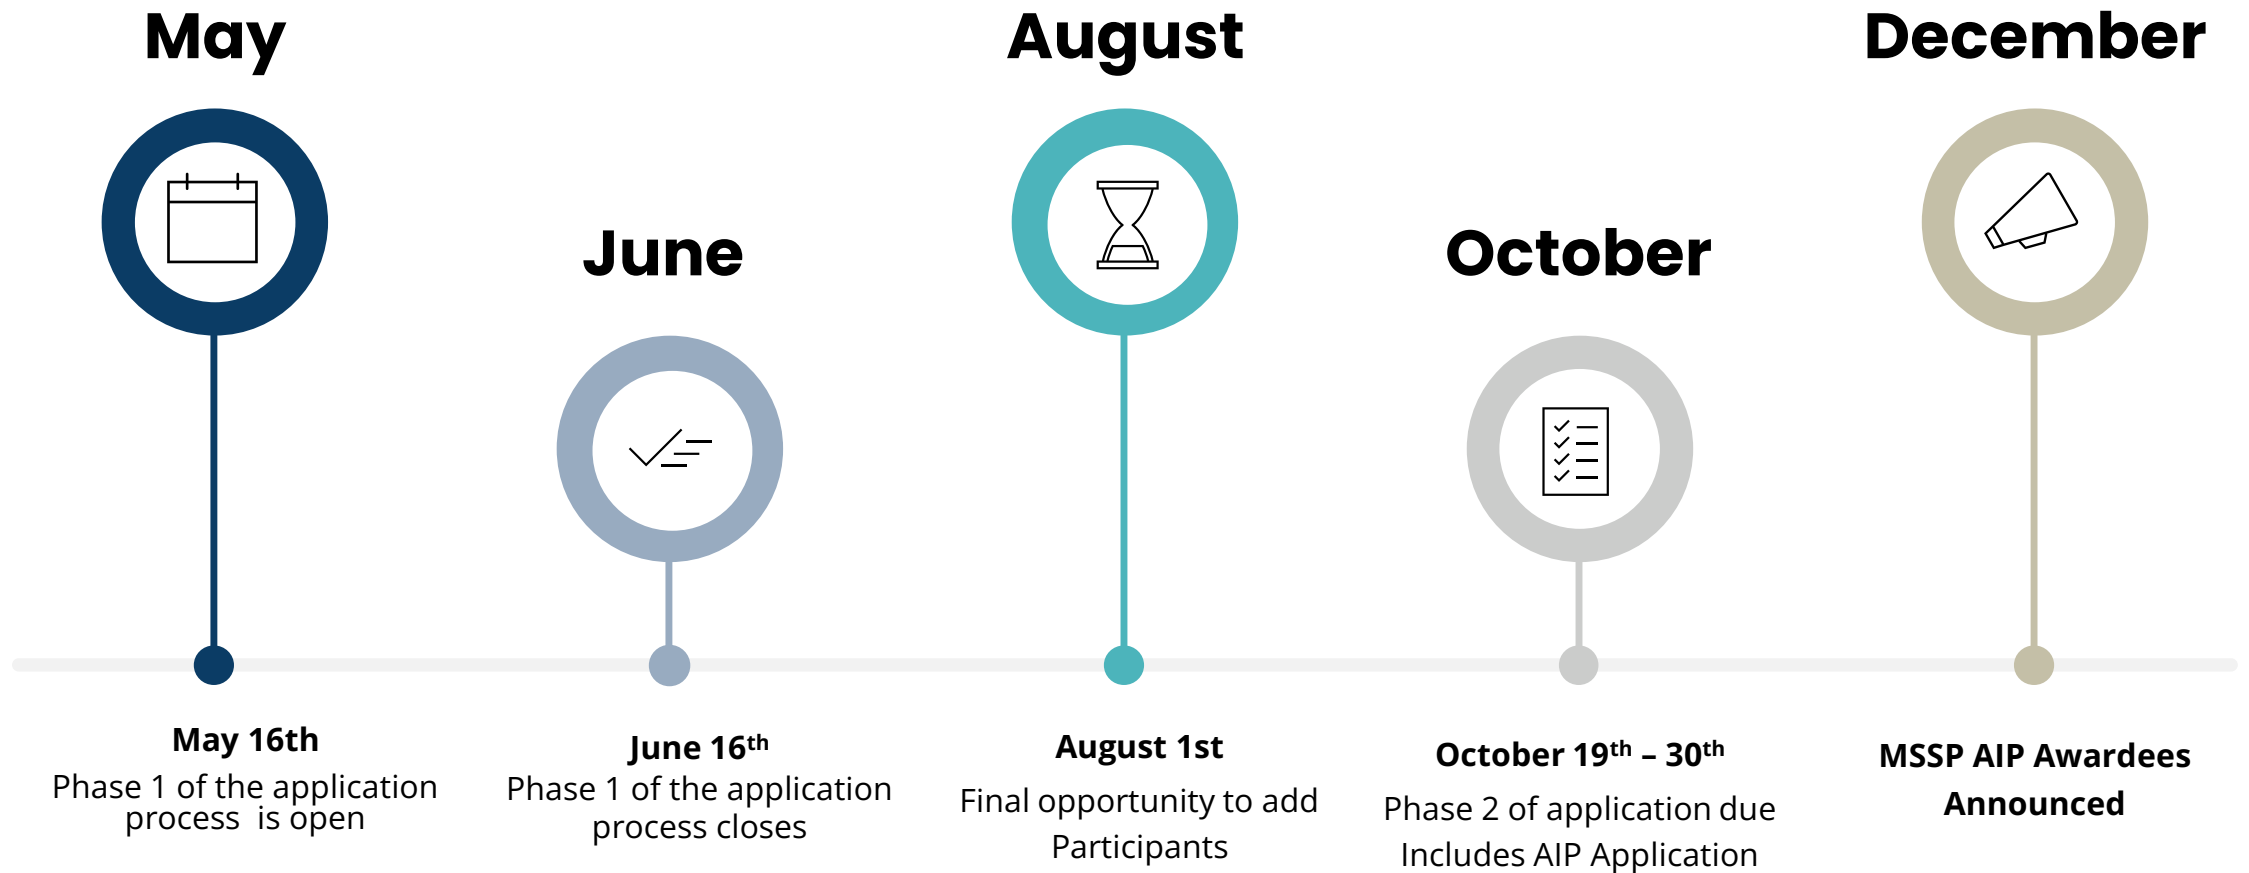

- 03.**
- Value-based Care Strategy
 - UDS
 - Medicaid Managed Care
 - Medicare Advantage
 - State-based Initiatives

ACO Partners

- 04.**
- Identify mission and value-aligned partners
 - Power in primary care
 - Influx of Primary Care “Enablers”

Key Timeline: CMS MSSP AIP Application Timeline

Four Key Next Steps

One	<ul style="list-style-type: none">• Internal Readiness Assessment: Staff capacity, care management and coordination efforts, and value-based initiatives alignment
Two	<ul style="list-style-type: none">• Medicare Patient Analysis: Medicare payer mix, Dual Eligible and Low-income Subsidy
Three	<ul style="list-style-type: none">• Explore Participation Options: Outreach to State Primary Care Association/HCCN or Clinically Integrated Network for Participation Options
Four	<ul style="list-style-type: none">• Governance: Determine any Board approval processes needed for ACO participation

Appendix

Value Transformation Framework (VTF) & Elevate Resources

The Value Transformation Framework

INFRASTRUCTURE

IMPROVEMENT STRATEGY
Define vision, goals, and action steps that drive transformation and improved performance.

HEALTH INFORMATION TECHNOLOGY
Leverage health information technology to track, improve, and manage the Quintuple Aim.

POLICY
Pursue decisions, plans, and actions that help secure support and resources for health centers and expand access for underserved populations.

PAYMENT
Utilize value-based and sustainable payment methods and models to facilitate care transformation.

COST
Address the direct and indirect expense of delivering comprehensive primary care to health center patients while considering the total cost of care.

CARE DELIVERY

POPULATION HEALTH MANAGEMENT
Use data on patient populations to target interventions that advance the Quintuple Aim.

PATIENT-CENTERED MEDICAL HOME
Employ a model of care that transforms the delivery of primary care into a comprehensive, patient-centered system focused on high quality, accessible, and coordinated care.

EVIDENCE-BASED CARE
Make patient care decisions using clinical expertise and best-practice research integrated with patient values and self-care motivators.

CARE COORDINATION AND CARE MANAGEMENT
Facilitate the delivery and coordination of care for high-risk and other patient segments through targeted services, provided when and how needed.

SOCIAL DRIVERS OF HEALTH
Address the social, economic, and environmental circumstances that influence patients' health and the care they receive.

PEOPLE

PATIENTS
Intentionally and actively incorporate the patient perspective into governance, care system design, and individual care.

CARE TEAMS
Utilize groups of staff with different skills to work together to deliver and improve care, offering a wider range of services more efficiently than a provider alone.

GOVERNANCE AND LEADERSHIP
Apply position, authority, and knowledge of governing bodies (boards) and leaders to support and advance the center's transformation goals.

WORKFORCE
Leverage a trained and fully engaged staff to successfully address the health center's mission and goals, with optimal joy in work.

PARTNERSHIPS
Collaborate and partner with external stakeholders to pursue the Quintuple Aim.

15 Change Areas organized by 3 Domains:

Infrastructure: the components, including health information systems, policies, and payment structures, that build the foundation for reliable, high-quality health care

Care Delivery: the processes and proven approaches used to provide care and services to individuals and target populations, such as evidence-based care and social drivers of health

People: the stakeholders who receive, provide, and lead care at the health center, as well as partners that support the goals of high-value care

Learn More About the VTF: *NEW* eLearning Modules

The screenshot shows the cover of an eLearning module titled "Value Transformation Framework". The cover features the Quality Center logo in the top right corner. The title "Value Transformation Framework" is prominently displayed in a dark blue box on the left. Below the title, there are two teal buttons: one with an hourglass icon and the text "5 MINUTES", and another with a calendar icon and the text "JANUARY, 2023". In the bottom left corner, there is a small logo for the National Association of Community Health Centers.

eLearning - Value Transformation Framework

START COURSE

Health Centers are complex systems that have many important processes to carry out and often limited resources. The VTF is an **organizing framework** that guides health center transformation within this complexity.

<https://www.youtube.com/watch?v=WcfWczRoYY0>

VTF Assessment: Use To Drive Transformation

INFRASTRUCTURE	CARE DELIVERY	PEOPLE
IMPROVEMENT STRATEGY Effectively and routinely measure and communicate information about the quality, value, and outcomes of the health care experience and use this information to drive improved performance.	POPULATION HEALTH MANAGEMENT Use a systematic process for utilizing data on patient populations to target interventions for better health outcomes, with a better care experience, at a lower cost.	PATIENTS Intentionally and actively incorporate the patient perspective into governance, care system design, and individual care.
HEALTH INFORMATION TECHNOLOGY Leverage health information technology to track, improve, and manage health outcomes and costs.	PATIENT-CENTERED MEDICAL HOME Employ a model of care that transforms the delivery of primary care into a comprehensive, patient-centered system focused on high quality, accessible, and coordinated care.	CARE TEAMS Utilize groups of staff with different skills to work together to deliver and improve care, offering a wider range of services more efficiently than a provider alone.
POLICY Pursue decisions, plans, and actions that help secure support and resources for health centers and expand access for underserved populations.	EVIDENCE-BASED CARE Make patient care decisions using a process that integrates clinical expertise and best-practice research with patient values and self-care motivators.	GOVERNANCE AND LEADERSHIP Apply position, authority, and knowledge of leaders and governing bodies (Boards) to support and advance the center's people, care delivery processes, and infrastructure to reach transformational goals.
PAYMENT Utilize value-based and sustainable payment methods and models to facilitate care transformation.	CARE COORDINATION AND CARE MANAGEMENT Facilitate the delivery and coordination of care and manage high-risk and other subgroups of patients with more targeted services, when and how they need it.	WORKFORCE Leverage a trained and fully engaged staff to successfully address the health center's mission and goals, with optimal joy in work.
COST Effectively address the direct and indirect expense of delivering comprehensive primary care to health center patients while considering the total cost of care for attributed patients.	SOCIAL DRIVERS OF HEALTH Address the social and environmental circumstances that influence patients' health and the care they receive.	PARTNERSHIPS Collaborate and partner with external stakeholders to pursue the Quintuple Aim.

2023 Refresh

VTF Assessment 2.0

- ✓ Still only 15 questions – 1 for each Change Area
- ✓ Refreshed to reflect current state of value-based care

reglantern.com/vtf

- ✓ Assess organizational progress in 15 areas of systems change important to value transformation.
- ✓ Recommended that 3 or more health center staff complete the assessment to get a balanced perspective of organizational progress in areas of systems change

Elevate Learning Forum

Guided application of the Value Transformation Framework

National learning forum and peer exchange

- 
COLLABORATE
- 
LEARN
- 
SHARE
- 
CREATE
- 
INNOVATE

WHY participate in Elevate?

- **FREE access** to transformation resources, tools, and learning
- **Save time!** Elevate does the 'lift' of distilling vast evidence-based information into 'bite-size' actionable, easy-to-digest resources
- **Can be shared** across your organization, bringing staff together using a common learning approach with open access to all
- **Connect with peers** across the nation to explore, share, learn, and innovate
- **Improve measures of performance**⁺ and Quintuple Aim goals through systems transformation
- **Explore new ways of working and delivering care** and work to **enrich patient and staff experience**
- **Build/enhance care management programs** to improve patient outcomes and **generate revenue to support transformation**

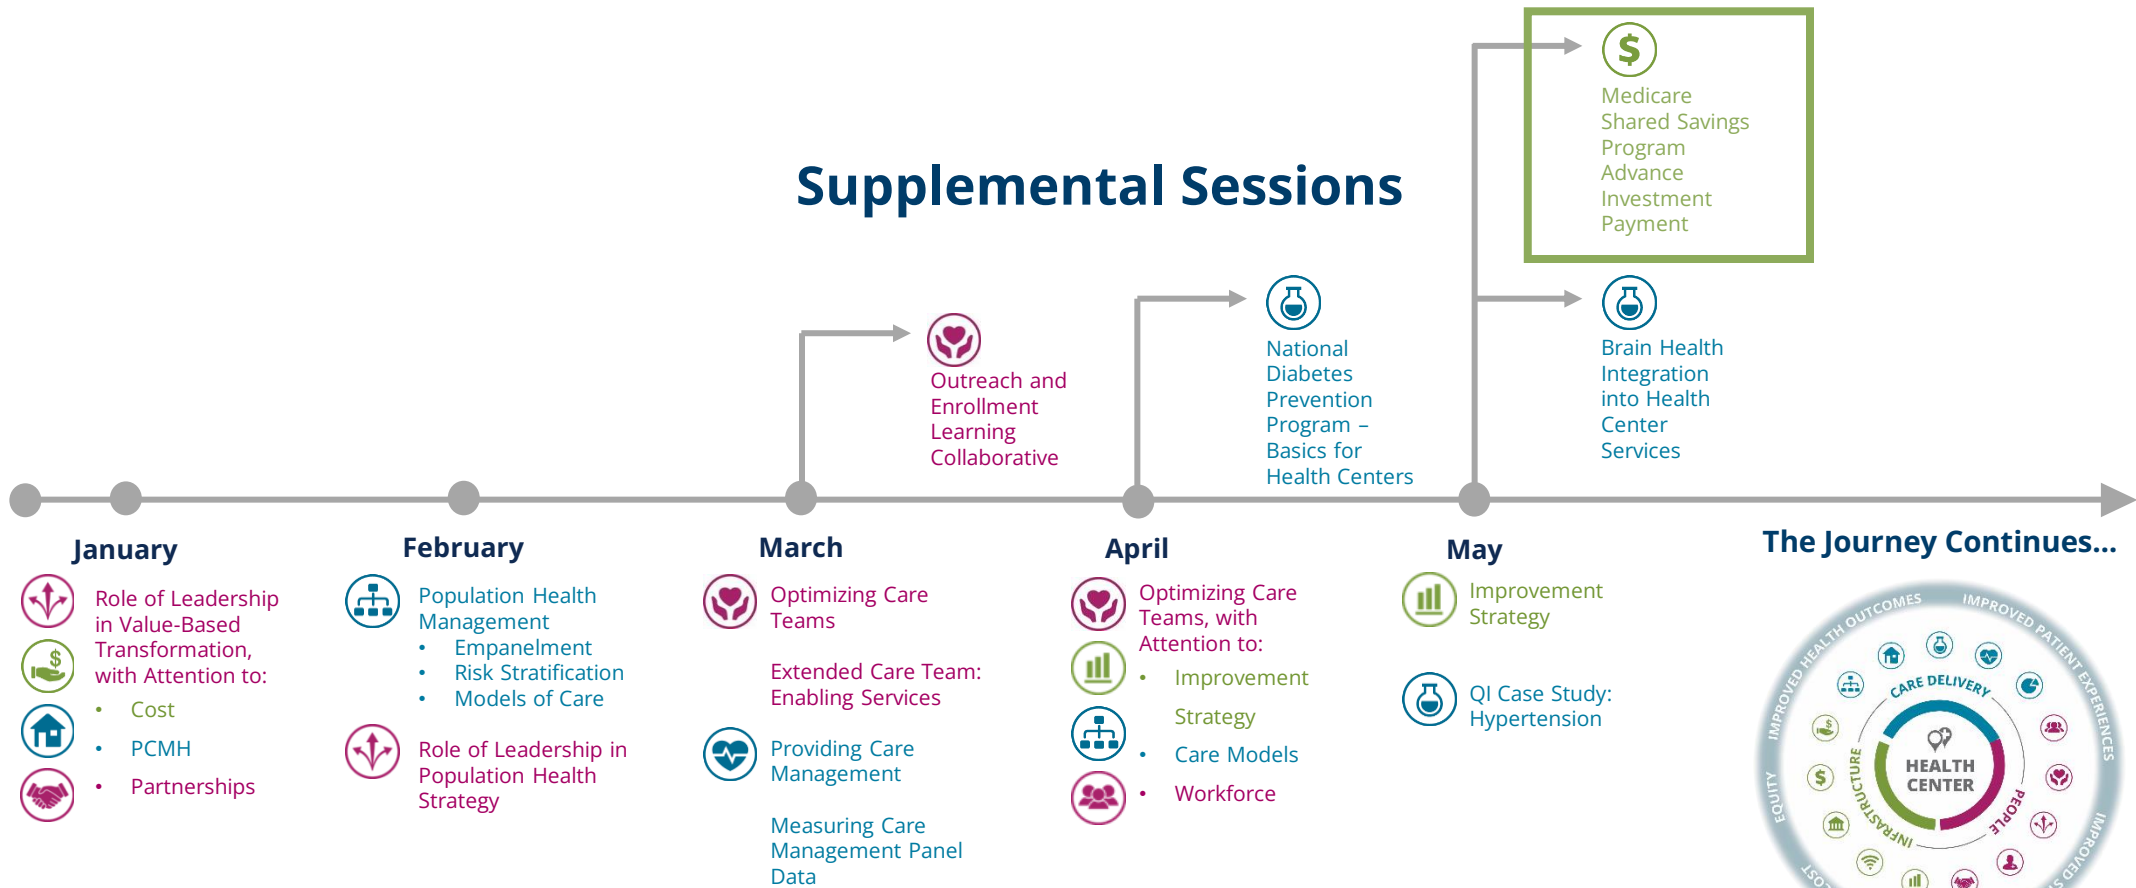

*An organizing approach
in a changing world*
