The Building Blocks of Care Coordination: Basics, Billing, and Looking Beyond to PACE

*Part III: Starting or Contracting with a
PACE Organization*

January 8, 2026

Housekeeping

Please support **NACHC's commitment to creating a respectful and professional environment** for all webinar participants, including attendees, speakers, and moderators.

To promote a positive experience for everyone, we expect all participants to use the chat and Q&A functions in a respectful and professional manner. Harassment, discrimination, and disruptive or inappropriate behavior of any kind will not be tolerated. Failure to follow these guidelines may result in removal from the webinar at our discretion. **Thank you for your cooperation.**

A decorative blue wavy line that starts from the bottom right and curves upwards and to the left, ending near the bottom center of the slide.

Welcome!

This three-part webinar series equips CHCs with foundational and practical knowledge to strengthen care coordination for Medicare patients. This session will focus on key considerations for CHCs interested in starting a PACE program or contracting with an existing PACE organization, including operational requirements, partnership models, and implications for serving dually eligible Medicare and Medicaid patients.

Objective: Participants will have a clear understanding of the PACE model and the strategic, operational, and financial factors involved in launching or partnering with a PACE program to better support older adults with complex care needs.

Today's Speakers

Peter Fitzgerald

Chief Strategy Officer,
National PACE Association

Vernita Todd, MBA, FACHE

Vice President, Senior Health
Services, *San Diego PACE*

Brian Toomey, MSW

Former CEO, *Piedmont
Health Services*

Elizabeth Linderbaum, MPP

Director of Regulatory
Affairs, *NACHC*

Care Coordination Connection to PACE

Joint Medicare-Medicaid program that covers all medical and social needs for participants

Goal of allowing participants to live in their homes safely for as long as possible

Patient Eligibility

At least 55 years old

Must live in a service area of a PACE organization

Certified to need nursing home level care but cleared to live in a community safely (with support)

Services Provided

- Adult day care
- Recreational therapy
- Home care and nursing home care
- Transportation to appts and the PACE center
- Hospital care and emergency services
- Prescription drugs
- Medical, dental, vision & hearing care

Care Coordination

Personalized care plan development

Doctors, nurses, social workers, therapists, social worker, dieticians etc all working together

Program of All-Inclusive Care for the Elderly (PACE)

Peter Fitzgerald
Chief Strategy Officer
National PACE Association
January 8, 2026

Support. Innovate. Lead.

The PACE Model Philosophy

The PACE Model of Care is centered on the belief that it is better for the well-being of frail elders with chronic care needs and their families to be served in the community whenever possible.

"What I witnessed here is a true miracle... It's a different way of looking at how you can age in America."

"What they're really doing is giving you agency over your future."

[Dr. Oz's Visit to On Lok PACE](#)

Why PACE? “A Consistently ‘High Performer’”

Study: U.S. Department of Health and Human Services, Office of the Assistant Secretary for Planning, Comparing Outcomes for Dual Eligible Beneficiaries in Integrated Care

- PACE participants significantly less likely
 - to be hospitalized,
 - to visit the ED, or
 - be institutionalized

Why PACE: Caregiver and Participant Satisfaction

95%

of family caregivers would
recommend PACE
to someone in a similar situation

- Family caregivers are highly satisfied with the support they receive
- High participant satisfaction
- Low disenrollment rate

Sources: https://www.npaonline.org/sites/default/files/PDFs/infographic/NPA_infographic_may2023-combined.pdf

Who Do We Serve?

PACE Participants

80.5%

are dually eligible for
Medicaid & Medicare

19.1%

are Medicaid-only

0.4%

pay a premium
(Medicare-only or other)

- Participants are eligible to join PACE if they are...
 - 55 years of age or older
 - Live in a PACE service area
 - Certified as needing nursing home care
 - Able to live safely in the community with the services of the PACE program **at the time of enrollment**

What is PACE?

Program of **A**ll-Inclusive **C**are for the **E**lderly

- Fully capitated alternative to nursing home care
- Helps older adults with complex medical needs live safely in the community
- Integrated system of care for seniors that is:
 - Community-based
 - Comprehensive
 - Capitated
 - Coordinated

Source: <https://www.npaonline.org/sites/default/files/11341-PACE.pdf>

Data sources specified in Appendix

Staffing

- **Plan Management**
- **Compliance**
- **Marketing**
- **Intake**
- **HR/Training**

Monthly Capitation Rate Example: Dual Eligible

Payment Type	Amount
Medicare – Parts A&B	\$ 3,103
Medicare – Part D	\$ 876
Medicaid – Dual Eligible	\$ 4,487
Total/Month	\$ 8,466

Financing New PACE Organization

PACE by the Numbers

198 PACE Organizations

380 PACE Centers

While PACE is a permanent federal program, states must choose it as an option

PACE Programs currently exist in 33 States and the District of Columbia.

Over 90,000 older adults enrolled

- Comparisons to broader health plan options

PACE Opportunity

Individuals with LTSS Needs: PACE Eligible vs. Enrolled

How Can PACE and CHCs Work Together

- Mutual Referrals
 - PACE eligible FQHC patients
 - Individuals needing primary care but not eligible for PACE
- Purchased Services, e.g.
 - Primary care
 - Behavioral health
- Development and Sponsorship - FQHCs
 - 20 PACE organizations are sponsored by an FQHC
 - Second largest PACE organizations (Altamed)
 - Fastest PACE organization growth rate (San Diego PACE)

A Look at San Diego PACE

Census by Site

■ Chula Vista ■ El Cajon ■ Vista ■ San Ysidro

The San Diego Environment

NPA: PACE in the States – June 2025

4 PACE Organizations in **San Diego County** serving 5,602

San Diego Potentially Eligible Seniors 60+ = 63,000

- *San Diego PACE (2015) – **3,173** census
 - 4 sites
- St. Paul's PACE (2008) – 1,469 census
 - 3 sites
- Gary & Mary West PACE (2019) – 473 census
 - 1 site
- *Family Health Centers of San Diego PACE (2019) – 487 census
 - 2 sites

29 PACE Organizations in **CA**

- CA Seniors Served in PACE = ~26,000
- Estimated **\$350M** AWOP savings

198 PACE Organizations in **USA**

89,688 = Total seniors served in **33** states and DC

*Estimated more than **2 million seniors** are eligible for PACE*

Data as of November 2025

FQHC & PACE: Why The Model Works

TRUSTED PARTNERS

- FQHCs have robust and comprehensive care delivery systems already developed
- FQHCs take a population health focus to quality
- FQHCs understand the importance of SDOH on participant care
- FQHCs are known to the patients and community stakeholders

INTEGRATED CARE

- FQHCs have integrated care models and health records
- FQHCs are Patient Centered Medical Home (*critical for PACE*)

Retaining Our Aging Populations: Importance of Care Coordination

Senior Needs are different and should be addressed accordingly to make seniors feel connected to their medical home:

1. Longer Appointments
2. More Medication Management
3. Caregiver Assistance
4. Coordination of Appointments
5. Socialization Needs
6. Quiet, Easy, Relaxing

There's room for you in PACE...

Closing Thoughts

- PACE provides fully capitated, comprehensive and holistic care for nursing home eligible seniors
 - *True Value-Based Care*
- FQHCs are a perfect pipeline for PACE though changing doctors to go to the PACE program can be a struggle, so don't assume high conversion from the beginning
 - *More than 30 million served in FQHCs, less than 100,000 served in PACE*
- Most participants coming in from the FQHCs have very **low RAF scores** due to lack of comprehensive coding
 - Chance to help your CHC in multiple ways – **invest in coding for your providers** (internal and/or training) – prove that “sickest patient elevator speech!”
 - *RAF – Risk Adjustment Factors help determine the amount you are paid (lags one year)*

California leads the nation in number of PACE programs, so if you don't start one – are there other things you can do to provide service to PACE?

Thank you!

Celebrating 10 years of compassionate care and service for seniors...

PACE AND FQHC

Community and Organization Issues

Brian Toomey

Former CEO, Piedmont Health Services

Many FQHC's are Considering PACE – What are the considerations

- FQHC'S have existed since 1965 – look how we have grown
- Several FQHC'S developed PACE programs in 1990's
- Look at your Mission Vision and Values Statements – almost all will include meeting Community needs
- Are you addressing the needs of seniors – and keeping everyone in community?
- PACE is a natural extension of FQHC values and Mission

Background on Piedmont Health Services (PHS)

- PHS opened PACE December 2008, one of two NC pilots
- PHS was one of 15 Rural PACE grant recipients
- PHS was committed to our Mission, Vision and Values
- We took several years to evaluate if it was right for us
- From 2008 – 2023 (During my tenure at PHS) we had positive results
- Averaged 13% operating margins, contributing to the FQHC bottom line – allowing us to see 50% uninsured patients

Piedmont Health Services PACE Journey & Advice

- Steps we took: Talk to other FQHC's and get their experience – especially FQHC's similar to you
- Engage Board, Administration and Medical staff in the exploration
- Budget Feasibility funds for the exploration – including travel
- JOIN NPA as an exploratory member – this is an incredible organization that wants you to succeed
- Attend NPA conferences
- Meet with FQHC's at the NACHC – another incredible organization that wants you to succeed – and NETWORK

Additional Key Takeaways

- Talk with FQHC's about who they used for their TA – you will need to have help for this
- Visit other PACE programs – including non-FQHC PACE programs
- The visits should include Board Admin, Clinical and Medical staff that are 'Senior Focused'
- Learn the pluses and minuses of doing a Fully Capitated Program – I think as an FQHC we are experienced as being innovative with less and thus are naturals for PACE

Summary

- PACE is the essence of what we do and who we are as an FQHC
- FQHC's have a history of leading – PACE is a natural fit
- Two Associations – NPA and NACHC have staff and members that can help you succeed.
- The next 15 - 20 years will be about seniors, cost containment, community-based solutions, innovation and quality outcomes
- FQHC'S AND PACE is the obvious solution
