

## Get a Sneak Peek: CFO Tools & Frameworks for Health Center Financial Success

Health center finance is complex. PPS, cost reporting, 340B, managed care, and federal grants all intersect.

NACHC's new *CFO's Guide to Health Center Financial Management* brings it together in one structured, practical resource built specifically for FQHCs and Look-Alikes.

It incorporates the most recent updates from the HRSA Grants Policy Statement, aligning financial operations with current federal requirements.

The guide also includes editable accounting policies and procedures, along with practical tools, dashboards, and templates you can use immediately.

This is operational guidance, not theory, designed to strengthen sustainability, compliance, and financial leadership.

### What's Inside

- Medicare and Medicaid PPS fundamentals
- Alternative Payment Models and managed care strategy
- 340B financial integration
- Revenue cycle optimization
- Section 330 grant compliance and program income guidance
- Accounting policies and internal control standards
- Practical tools, dashboards, and templates

**This is not theory.**

**It is structured, operational guidance for real-world health center finance.**
