

Value-Based Payment: Move Beyond the Visit – Position for Total Cost of Care

NACHC is pleased to announce the launch of a Value-Based Payment (VBP) learning series designed to meet health centers and health center partners, along the VBP readiness continuum – from Planning, to Implementing, to Optimizing.

This **3-part webinar series** will guide health center leaders and care teams through practical steps to design and implement a Total Cost of Care (TCOC) operating model that supports population health management, value-based payment readiness, and financial sustainability.

Recommended audience: Participants from health centers and partner organizations at the 'Implementing' or 'Optimizing' stages of VBP readiness.

3-Part Webinar Series

Speaker: FORVIS, LLP

Session 1: Building the Foundation for Total Cost of Care

- Define attributed populations, accountability structures, and units of analysis (PMPM/PMPY)
- Map key cost drivers across the care continuum
- Establish a baseline Total Cost of Care for attributed patients

Date: June 4, 2026, 1-2 pm ET **REGISTER:** [Session 1](#)

To continue with Sessions 2 & 3, participants need to complete the [VTF Assessment](#) Organizational self-assessment to guide improvement and value transformation.

Session 2: Using Risk and Data to Guide Care and Cost Strategies

- Stratify patient populations by clinical risk and utilization
- Align care management resources and workflows to risk tiers
- Deploy targeted interventions to reduce avoidable utilization and improve outcomes

Date: June 11, 2026, 1-2 pm ET **REGISTER:** [Sessions 2 & 3](#)

Session 3: Modeling Financial Performance and Sustaining Results

- Apply risk adjustment across cost domains and model financial scenarios
- Use cost insights to inform value-based contract negotiations
- Monitor TCOC performance and refine interventions through ongoing performance governance and continuous improvement

Date: June 18, 2026, 1-2 pm ET

Fundamentals of Value-Based Care eLearning Modules

Two-part value-based care eLearning series designed for health center leaders who are considering entering a value-based payment contract.

- **Module One** describes payment models and contract considerations
- **Module Two** delves into transforming care to meet goals.

Modules are available on demand and can be completed at your own pace.

Recommended audience:

Participants from health centers and partner organizations in the 'Planning' stage of VBP readiness, those interested in learning about the current VBP landscape.
